Software Engineer

WHO AM I?

Hello world, I am a master student enrolled at KTH, studying Distributed Systems. I was born in Sweden (Lulea) and my parents are from Lithuania and South Korea, but I grew up in Germany. My passion for software development started in school and fully ignited during my studies at university. My aim is to become a better software developer, by gaining experiences in as many areas of software development as possible. When I'm not programming or studying, I like to spend my time meeting friends and playing football.

EXPERIENCE

- 9/2022 – 6/2023 DevOps/ Cloud Platform Engineer** taod Consulting GmbH
Writing IaC, deploying/ creating resources and infrastructure in the cloud, configuring pipelines, managing Kubernetes cluster via Argo CD and Helm, and software development in Python
Terraform / Python / Docker / K8s / Helm
- 11/2021 – 7/2021 Software Engineer**
freelance
Designing and creating websites for customer. Backend-programming for documentmanagement web apps
